# rotec® Blue Light Sleeve

**Light and robust sleeve for conventional plate mounting with adhesive tape**

**Available wall thicknesses from 1 mm to 100 mm**
**Special sizes available on request**

## Product advantages

- superior lifetime due to excellent durability
- optimal stability with low weight
- suitable for all plate and adhesive tape thicknesses
- simple adhesive tape dismounting
- can be combined with various types of adapters
- easy and reliable handling

## Product features

- hard sleeve for traditional plate mounting with adhesive tapes for nearly all diameters and length
- suitable for repeat length increases up to 600 mm
- extremely durable polyurethane surface (75 Shore D) – generally scratch and solvent resistant if handled correctly (see rotec® User's Advice)
- proven rotec® interior design of synthetic resin and fibre compound assures long-lasting and consistent mounting characteristics
- high-precision grinding (TIR ≤ 0.025 mm) measured on carrier cylinder at TIR ≤ 0.005 mm
- tolerance of face-length according to DIN ISO 2768 T1 c
- available in a conductive version with rotec® Ω-Surface Technology*

*The regulations of ATEX 95 concerning electrostatic derivation ability are fulfilled.
