

ARGOX CAN.

## ArgoKee

## ArgoKee

ArgoKee is an exceptionally user-friendly and cost-effective Keyboard Display Unit (KDU) that supports Argox label printers for stand-alone operation. ArgoKee is compatible with both Datamax and Eltron printers for added versatility in bar-code applications. ArgoKee's ergonomically designed Notebook PC keypad and 15-degree elevated LCD display screen makes data key-in easy and comfortable. To further facilitate stand-alone operation, it can also be connected to a barcode scanner for data input.

Specifications	ArgoKee
Keypad Type	Standard Notebook PC keypad
Key No.	85 keys
Software Support	Windows labeling design software - ArgoBar
Display	20 x 2 LCD display, 2 x LED display
Interface	P1 (port 1), male Dsub, 4800 ~ 9600 baud rate P2 (port 2), female Dsub, 4800 ~ 9600 baud rate
Memory	512K RAM / 256K Flash, 128K available for form data storage
Compatibility	PPLA / PPLB / Basic Programming
Firmware Control	PC downloadable - Print Utility
Power Source	110/220 V ±10% power adapter, 7.5V/400mA (Powered by Argox printers directly while connected)
Dimensions	W165 x D301 x H35 mm
Weight	490g
Operating Temperature	40°F ~ 104°F (4°C ~ 40°C)
Storage Temperature	-4°F ~ 140°F (-20°C ~ 60°C)
Humidity	10% ~ 95% non-condensing
