

SMS-900

Sign Making System

For the Big, Important Messages

Up to 3.2 M Long

Multiple Colours

High Visibility

- Maintenance labels
- Health and Safety
- Tank and Vessels
- Heavy Equipment
- Traffic Management
- Process Marking
- GHS and ADR Labels
- Vehicle Marking
- Public Information

SMS 900 – The BIG FOOT sign and labeling system.

Designed to produce large, bold, long lasting heavy duty signs and labels. The SMS 900 is a solidly engineered system, built for heavy industrial environments and high workloads. Complete with Microsoft approved design software and an enormous library of industrial symbols and signs, the SMS 900 has a large range of high visibility, high durability materials. Multiple colour signs are easily created using our range of A4 and A5 die-cut pre-printed 'signs on a roll'.

Big Messages – Delivered in-house, in minutes and in colour

Major Impact

Large Range of Materials

Ease of use

ABB Saline Vess
Low Bar Risk No Back Was
VFM - 1000 QRS XX

Safety Harness Instructions
Read and understand these instructions before using this equipment

How To Put The Harness On
Pick up at rear 'D' ring and ensure that straps are not twisted. Pass arms through shoulder straps (1). Fasten Chest strap (2) and adjust until shoulder straps are pulled to vertical. Adjust position of rear 'D' ring plate (3) using straps (4) so that 'D' ring is central between shoulder blades. Draw leg straps (5) between legs and thread buckles (6) pulling end strap to tighten snugly around thigh. Secure all knee straps on holders provided.

If Used To Arrest A Fall, Harness Must Be Withdrawn From Service

No climbing in Windturbine
RISK OF DEATH!
