## QL-560 Label Printer

**simply professional**  
**QL LABEL PRINTERS**

Brothers QL Label Printers have taken label printing to a new level. Whether you need one or many labels, the QL-560 is fast, versatile and prints labels directly from your PC or MAC. Direct thermal printing eliminates the need for ink and toner.

# The ideal introduction to creating professional-looking labels

**The QL-560 Professional Label Printer is perfect for those who are new to labelling. It is a quick, versatile label printer for the office, home office or any other business use.**

It connects easily via USB to your PC or Mac, and prints high-quality

labels for everything from name badges and divider tab labels, through to signage and shipping labels.

The integrated automatic label cutter means you can use continuous label rolls and cut labels to any length from 25mm to 1m. And you will always get a clean cut edge to your labels. Put simply, you can create almost any label size you want without even changing the label roll!

## Overview of features

- Prints up to 56 labels/min\*
- 300dpi high resolution printing
- Prints up to 62mm wide labels
- Automatic built-in cutter
- Label design software included

- 19 DK-22606 62mm x 15.24m
- 20 DK-22113 62mm x 15.24m

# Choose your Labels

## STANDARD PAPER LABELS

Our paper labels have a special top coat applied, making them more durable than standard paper labels.

## REMOVABLE PAPER LABELS

Easily removed from the item leaving no adhesive residue or other marks.

## PLASTIC FILM LABELS

An excellent solution for temporary signage and when paper labels are not strong enough. Use the tear resistant plastic film labels in areas of occasional moisture and abrasion. Available in white, yellow and clear.

## Multiple uses throughout many businesses

**This extremely versatile label printer is ideal for labelling folders, letters, name badges, medical records, test tubes, warehouse racks, price tags, and food ingredient labels, to mention just a few.**

It even comes complete with Brother's label design software, enabling you to create custom designed labels with barcodes, graphics, true type fonts, and special formatting (including frames and tables). It also prints labels directly from Microsoft® Word, Excel or Outlook. What could be easier!

**Print professional labels directly from MS Word, Excel, or Outlook:**

1. Highlight text
2. Click the P-touch icon
3. Your label is printed!

## Achieve a professional office look

**Creating an organised and professional looking work environment is easy with the Brother QL-560 Label Printer**

Here are four simple labelling tips to achieve a professional office look:-

	Before	After
<p><b>Spine labels</b></p> <p>Create an easily retrievable system for your file folders by labelling the spines with continuous length label tape. Adjust the label to the length that suits your particular files.</p>		
<p><b>Address and shipping labels</b></p> <p>Ensure that addresses are legible on envelopes and parcels. Simply print them directly onto address labels. For a really professional look, include your company's logo, too.</p>		
<p><b>CD/DVD labels</b></p> <p>CDs and DVDs will be instantly recognisable and professional looking when labelled. You can include all the information you need, such as subject, date and time.</p>		
<p><b>Paperwork</b></p> <p>To differentiate your finished projects from ongoing ones, label them with 24mm round labels. Include the project's completion date on the label and you'll know exactly when it was finalised and signed off.</p>		

For additional labelling information visit us at [www.p-touch.com](http://www.p-touch.com) or contact your local Brother P-touch supplier.
