

Smart Label Printers®

Print labels fast and easy.
One at a time.

- Eliminate the hassle and expense of printing labels with a standard printer
- No ink, ribbons or toner needed
- Smart Label software included
- Works with Windows® and Mac OS® X
- Networkable: USB and Serial connections built-in

Smart Label Printer:

- Direct thermal printing technology eliminates expensive inks, ribbons and toner
- High-quality, professional results — no more handwritten or unreadable labels
- Stop struggling with your standard printer's manual feed or network printer
- Easy to use labels load automatically
- Compact design saves desk space
- Quick and silent operation

Smart Label Software:

- Design labels with multiple fonts, graphics and bar codes using our easy-to-use WYSIWYG SmartLabel application
- Capture text from virtually any Windows or Mac application with SmartCopy™
- Shrink-to-fit and word wrap ensures addresses and other text fit the label
- Automatically print postal bar codes for US, UK and the Netherlands
- Print Code 39, UPC-A, UPC-E, EAN 13, I2/5, Code 128 and Codabar barcodes
- Import graphics to create high-quality custom labels with company logos, digital images, etc.
- Import list of contacts
- Built-in database saves most commonly used labels for instant recall
- Print labels directly from virtually any Windows or Mac application

The user friendly Smart Label Printer makes it easy to mix and match fonts, graphics and bar codes all on the same label. Easily prepare customized formats with your own company logo complete with a post office approved bar code — without the hassle of using standard printers.

SmartCapture™ lets you instantly capture an address from applications like Act!, Goldmine, Now Contact, Outlook, Palm Desktop and Word. All with a single mouse click. You'll never have to retype.

Only Seiko Instruments can offer you a label printer this smart, backed by a name you can trust for quality and reliability.

For best results we recommend the use of Seiko Instruments SmartLabels, other brands may not be engineered to provide optimum, trouble-free results with your smart label printer, they may not work with your printer or they may damage it and void your warranty. They are available in a wide variety of sizes and colors to properly label almost anything.
